

AZUR GROUP

Over 10 years of software development experience

Microsoft Partner

Silver Independent Software Vendor (ISV)

WEB-BASED SOFTWARE DEVELOPMENT INNOVATIVE PROCESS

LET OUR TECHNOLOGY WORK WITH YOU

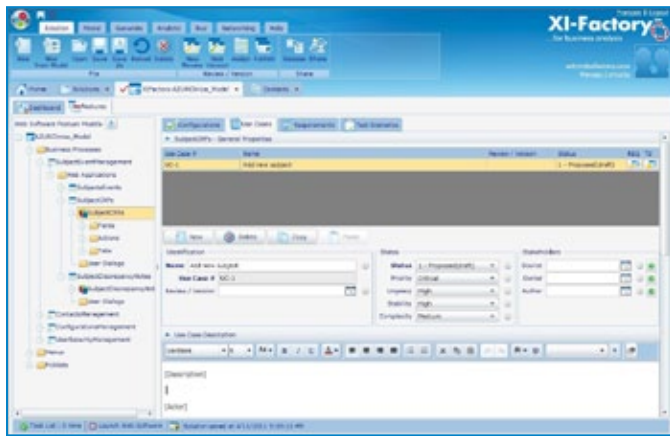

AZUR VALUE PROPOSITION

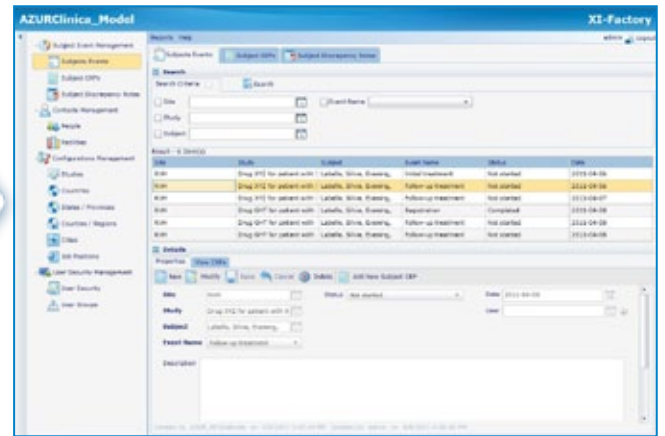

We have come to expect a lot from software solutions: they have to get the job done, be flexible, efficient and they have to merge seamlessly with existing systems. Demand for secure web-based software is increasing rapidly, but the costs and risks involved in developing these systems can be overwhelming. There has to be an alternative solution...

Do You Need...

- New web-based software solutions
- To upgrade legacy systems
- A dependable IT business partner
- **Sharepoint**, Salesforce and Biztalk integration
- Business intelligence solutions
- Mobile applications (iPad, Windows Phone 7)

XI-Factory design tool

Generated web software prototype

Azur Group Solutions

- High quality professional services
- Cutting edge technology
- Affordable rates
- **XI-Factory**, a unique and innovative productivity tool!

XI-Factory

- A unique and innovative online tool for **high-productivity business analysis**
- Designed to greatly reduce software development complexity and cost
- Maximizes quality and performance
- On average, will instantly generate 50% of a web-based software
- Incorporates AZUR's **knowledge** and expertise acquired over 10 years in R&D efforts and customer projects
- Supports an **automated and distributed agile software development process**

AZUR COST-EFFECTIVE SOLUTIONS

Our Offer

- Custom developed, secure, **high quality web-based software solutions**
- Project analysis and on-time delivery at very competitive rates
- Support and training
- A team of qualified and experienced developers
- Multiple hosting options, including Windows Azure

Your Benefits

- Quickly respond to market demands
- Working projects delivered on time at low risk
- Less dependency on developers and proprietary solutions
- **Quality cost-effective systems**
- Standard architecture
- Scalable web software that integrates with your systems

Our Edge

- Quick and accurate **understanding of your needs** through online requirements gathering and **collaborative reviews**
- Fast and **automatic software generated** prototypes that allow you to visualize your business processes online
- Solid and reliable software architecture based on over 10 years of experience
- With **XI-Factory**, we consistently deliver cutting edge technology solutions at significantly reduced cost and risk
- High expertise in **Microsoft .Net and Silverlight technologies**

Our Commitment

- Secure and high performance web-based software
- High value and efficiency through **software development process automation**
- The **right** solution delivered in a timely manner
- Competitive rates

AZUR UNIQUE PROCESS

Our approach is based on an **automated and distributed agile software development methodology**. This means we focus on YOUR needs. We quickly respond to change and deliver step by step results that you can test as the project moves forward. Our tools encourage and promote user feedback and online collaboration.

Understanding your needs

We meet and discuss with you to determine business needs, evaluate your current situation and learn more about your software requirements.

Project scope

We specify main software features with high-level user scenarios and requirements. We quickly deliver a **working web-based software prototype you can see, test and validate**. You provide feedback through an online collaborative review process. We provide project cost and time.

Development

Project Go Ahead! Once we understand your needs, we further analyze and define the solution's design according to the specification. **We build the software using an iterative and incremental process.**

Testing

You test and evaluate online software versions which are deployed on a regular basis. Your feedback determines our success.

Deployment

The system is made ready for use. Full documentation is provided.

Support and maintenance

Once in use, various parts of the solution typically need to be supported or enhanced. We transfer knowledge over to your team and we work together to ensure the success of the project.

“ XI-Factory supports a unique agile web software development process ”

SOLUTIONS YOU CAN TRUST

Whatever your web software development requirements are, the AZUR Group can deliver reliable and cost-effective solutions to grow with your needs. [Contact us for more information.](#)
